LinkedIn Profile

EXECUTIVE SUMMARY

Multidisciplinary **Data Analyst**, **Executive BI Dashboard Architect**, and **Creative Producer** with proven expertise in transforming complex organizational and multimedia datasets into actionable strategic intelligence. Combines advanced quantitative modeling ([Workforce Analytics](#), [Cross-Tabulations](#), [Excel Power Modeling](#)) with programmatic media automation ([React/Remotion](#), [FFmpeg](#)) and broadcast audio engineering (**-14 LUFS**). Adept at structuring interactive executive dashboards, uncovering operational workforce efficiencies, and deploying high-retention digital media assets.

CORE COMPETENCIES

DATA ANALYTICS & BI DASHBOARDS

Workforce & HR Analytics, Executive KPI Dashboards, Cross-Tabulations, Demographic & Qualification Modeling, Proptech/Real Estate Feasibility.

SPREADSHEET & MODELING ARCHITECTURE

Advanced Excel (Dynamic Arrays, Pivot Matrices, Power Query), Data Cleaning, Trend Forecasting, Automated Executive Report Generation.

VIDEO PRODUCTION & MOTION

Short-Form Storytelling (9:16 / 16:9), Programmatic Rendering, Safe-Zone Architecture (320px UI), Vector/SVG Motion Graphics.

AUDIO ENGINEERING & MASTERING

Loudness Normalization (-14 LUFS / -1.0 dBTP), Frequency Sculpting (High-Pass / Notch), De-noising & De-breath Automation.

MEDIA AUTOMATION & PIPELINES

FFmpeg Scripting & Video Compression (-89.4%), Code-Driven Video Generation (Remotion), Multi-Platform API Publishing, SQLite/JSON Logging.

GROWTH, RETENTION & STRATEGY

Audience Retention Optimization, Hook Engineering, Omnichannel Social Launch Sprints, Rapid A/B Iteration & Performance Analytics.

FEATURED PROJECTS & TECHNICAL MILESTONES

Lead Data Analyst & BI Dashboard Architect

Enterprise Workforce Analytics & BI Dashboard (W0-HR-001)

Organizational Intelligence, Cross-Tabulation Modeling & Workforce Optimization

- Engineered a multi-tier Executive Workforce Intelligence Dashboard analyzing organizational human capital across 96+ personnel in 8 municipal departments, delivering real-time visibility into headcount dynamics, gender ratios (87.5% M / 12.5% F), and hiring categories (78.1% civil service vs. 21.9% contracts/wage brackets).
- Formulated advanced cross-tabulation matrices mapping educational attainment (61% higher education vs. 39% technical/diplomas) against leadership levels and operational departments, establishing data-backed talent reallocation models for high school and diploma holders across Emergency Operations (940 Dispatch), Customer Care, and Public Engagement.
- Developed Proptech & Real Estate Feasibility Models (Minya Market Analyzer), creating interactive valuation matrices, neighborhood ROI heatmaps, and price-sensitivity models that accelerated strategic property investment decisions.

Media Automation Architect & Producer

Automated Publishing & Compression Hub

Enterprise Media Pipeline & Delivery Infrastructure

- Automated omnichannel syndication across 4 major platforms (YouTube Shorts, Instagram Reels, TikTok Studio, Facebook Reels) by engineering a unified deployment pipeline, achieving a 100% upload success rate without manual intervention.
- Reduced raw media file payloads by 89.4% (compressing raw videos from ~95 MB down to ~10 MB) by developing custom multi-pass FFmpeg compression presets that preserved full 1080x1920 mobile visual fidelity and enabled zero-buffering mobile playback.
- Accelerated content traceability and audit speed by deploying a centralized JSON/SQLite tracking database to automatically register publish timestamps, canonical URLs, and metadata schemas.

Creative Producer & Narrative Director

React & Remotion Video Studio

Programmatic Cinematic Storytelling & Generative AI

- Engineered a scalable, code-driven video engine using React and Remotion, generating frame-accurate 30fps vertical (9:16) and landscape (16:9) video exports with modular component reusability.
- Directed cinematic visual aesthetics inspired by Makoto Shinkai and Studio Ghibli art styles by combining advanced generative AI visual styling with structured scene storyboards for episodic content.
- Eliminated audio-visual drift by designing millisecond-accurate timeline orchestration aligning synthesized multi-track voiceovers with animated visual cues and dynamic kinetic text layers.

Motion Designer & Audio Engineer

AI Educational Motion Graphics & Studio

Vector-Driven Explainers & Broadcast Audio Compliance

- Directed and animated 5+ flagship vertical educational episodes, integrating vector graphics (SVG) with synchronized kinetic assets to maximize conceptual clarity and topic comprehension.
- Standardized audio fidelity to international broadcast compliance (-14.7 LUFS integrated loudness, -1.0 dBTP true peak) by deploying 75Hz high-pass filters, surgical equalization, and automated hesitation removal.
- Boosted viewer completion rates by embedding over 690+ phoneme-synced dynamic subtitles per episode while strictly adhering to a 320px bottom clearance UI safe-zone across mobile social platforms.

Content Strategist & Growth Lead

Omnichannel Launch Sprints

Social Funnel Architecture & Audience Retention

- Spearheaded a rapid 14-day multi-format launch campaign, architecting high-converting hook structures, carousels, dynamic stories, and lead-magnet funnels across social ecosystems.
- Maximized audience hold rates and engagement by applying behavioral retention psychology, including problem-first narrative hooks, rapid pacing cuts, and frictionless conversion pathways.

TOOLS & TECHNOLOGIES MATRIX

Data Analytics & BI Architecture:

Advanced Excel (Dynamic Arrays, Power Query, Pivot Matrices), Workforce & HR Analytics, Proptech Modeling, Statistical Visualization.

Video & Motion Architecture:

React, Remotion, FFmpeg, Adobe Premiere Pro, CapCut, VideoScribe.

Audio Engineering & Acoustics:

Adobe Audition, iZotope RX / Post Suites, Dynamic EQ, LUFS Analyzers (-14 LUFS).

Generative AI & Media Pipelines:

Visual Prompt Engineering, Midjourney / Gen-AI Visuals, Automated Subtitle Synthesis, Google NotebookLM.

Platforms, Systems & Languages:

TikTok, Instagram Reels, YouTube Shorts, SQLite, JSON Data Pipelines. Arabic (Native), English (Professional).

★ EXECUTIVE ELEVATOR PITCH (JOB APPLICATIONS & LINKEDIN)

“I bridge the gap between rigorous data analytics and high-impact visual storytelling. Whether architecting enterprise workforce BI dashboards that reveal operational leverage, or engineering automated short-form video pipelines (React/Remotion, FFmpeg, -14 LUFS audio), I transform complex data and creative concepts into structured, high-retention strategic outcomes.”
